

Full Legionella Risk Assessment Quotation

Medical Supermarket are pleased to offer the quotation for Identification and assessment of the risk of exposure to Legionella bacteria and a Water Hygiene Survey.

To carry out:

1. A full risk assessment of all water services at your surgery
2. Full control scheme and remedial actions to be identified
3. Full schematic drawings of the water systems to be produced
4. Technical back up provided when report produced

The assessment will take a few hours, depending on the size of the surgery and number of sites to be assessed. Please note that there is no disruption to site's water services during this time, all that's needed is access to every room that uses water.

Once the assessment has been completed a report will be provided with the findings of the assessment. The objectives of the report are usually to;

- Record the current situation
- Record the agreed action plan and priorities to reduce risk exposure
- Provide guidance on implementing the improvements.
- Support observations and subsequent recommendations with
- Photographs
- Document ensures compliance with ACOP L8
- Document conforms with BS8580
- Document will also provide a guide to your water system

All for the one off fee of: £340 + VAT

Please let us know if there are any queries, or if you wish to proceed with this service.
Any remedial works will be noted but not carried out
